Plus we take less out with low participant fees — typically under 1% for asset management and fund expense ratios together! Get started with a one-time setup fee and an ongoing monthly fee to cover administration and a full array of services (see back).

Low Cost Solution

ShareBuilder 401k plans are typically 41% less “all in” than traditional plans*. Startup plans start at \$15 per month for a self-employed business and range up to \$550 per month for businesses with up to 1,000 employees (after a one-time setup fee). If you have an existing 401(k) plan you may qualify for admin pricing as low as zero depending on how much money is in your plan.

Great Pricing Today and Better Pricing Tomorrow... Automatically

As your company’s total plan assets grow, we automatically lower your administration and asset management fee. We think this is the right way to do business—upfront, transparent, and a great price!
